Shoulder Blisters Assembly

# General Guidelines

---

The blisters come in one size. The blisters must be installed per the following rules.

- A. The blisters can be placed as required by the shoulders of the driver.
- B. They can be used full size or less.
- C. The tear drop can be forward or rearward.
- D. The blisters are to be attached by fiberglass resin or epoxy.
- E. A strip of fiberglass may be used on the outside of the car and blisters to make a reinforced joint.
- F. The blister can be blended into the car for a maximum of five inches with body filler.
